

# OPEN CALL FOR PARTICIPATION IN THE PILOT PHASE OF THE EUROPEAN PROJECT C.L.A.I.M.

## Artificial Intelligence for Competences and Learning

### What is C.L.A.I.M.?

C.L.A.I.M. is an Erasmus+ European project aimed at equipping SMEs and VET providers with advanced technological and methodological tools to support personalised and targeted analysis and diagnosis of training and professional needs, driven by the green and digital transitions and internationalisation.

### Objective of the Pilot

The **pilot phase** will test the **C.L.A.I.M. Model** and its associated educational tools by involving **35 professionals** working in HR roles across six EU countries:

-  Italy (5 participants)
-  Spain (10 participants)
-  Bulgaria (5 participants)
-  Slovenia (5 participants)
-  Greece (5 participants)
-  Poland (5 participants)

Selected participants will take part in an **innovative training pathway**, including e-learning modules, in-person workshops (CLAIM Labs), self-assessment tools, reverse mentoring, and international mobility.

### Who can apply?

Eligible applicants must:

- Be employed in an **HR role** within an SME;
- Operate in one of the six participating countries listed above;
- Be **fully committed** to participating in the training programme and using the tools and methodology provided.

### Key Dates

- **Launch date:** 15/07/2025
- **Closure of Registrations:** 10/09/2025
- **Evaluation and contracting phase:** from 11/09/2025 to 18/09/2025
- **Testing of the teaching material and tools of the “TaiLENT” platform:** from 19/09/2025
- **Completion of the program:** 30/11/2025

### Eligibility criteria for participants

The pilot phase of the CLAIM project is aimed at workers, identified as the main beneficiaries of the initiative. The aim is to test and validate the educational, digital and methodological solutions developed within the project.

Eligible participants include workers who:

- work in a company in a HR role with operational headquarters registered in one of the pilot regions of the CLAIM project (5 IT, 10 ES, 5 BG, 5 SI, 5 EL, 5 PL)
- are committed to participate in the entire training program and to implement the common technological tools and the methodology developed to manage the analysis and personalized diagnosis of training/professional needs induced by the green and digital transitions and by internationalization.

### **What does the programme offer?**

Upon successful completion of all the activities included in the program, each participant will:

- Receive free access for two years following the closure of the CLAIM project to training materials (OER, Narrative Branching Scenarios and Video Tutorials)
- Join the CLAIM network to receive updated information on future initiatives
- Receive information on the monthly and/or annual usage methods of both the “TaiLENT” platform tools tested during the piloting phase, and of any other current and future solution of the same, as per the specific catalogue of services offered, benefiting from preferential conditions for having taken part in the piloting of the CLAIM project
